DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1, 7 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Kwack et al (U.S. 6,157,879).

As to claims 1 and 7, Kwack et al disclose a suspension control apparatus for a vehicle comprising a vertical acceleration sensor (21) for detecting a vertical acceleration of a vehicle; and a control unit (37) for determining a road surface profile by estimating wavelength and amplitude of irregularities of the road surface (figure 8) based on the vertical acceleration (21) of the vehicle detected by said vertical acceleration sensor (21), and determining a suspension control value by controlling a damping force (the damper position determination unit 32 determined a suspension control value for the dampers 33-36) based on said road surface profile.

As to claim 16, Kwack et al discloses a suspension control method for a vehicle comprising: detecting a vertical acceleration of the vehicle (by a vertical acceleration sensor 21); determining a road surface profile by estimating wavelength and amplitude of irregularities of a road surface (by the road surface computation control unit 37) based on the detected acceleration of the vehicle in the vertical direction; and

Art Unit: 3616

determining a suspension control value (by the damper position determination unit 32) based on said road surface profile.

Allowable Subject Matter

3. Claims 2-6 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
4. Claims 8-15 and 17 are allowed.
